

Formulated for the roofing, construction and flooring industry, this range of adhesives and coatings continues to evolve.

Itac has been successfully developing adhesives and coatings for the building and construction industries for many years.

One of our key customers Delvemade is now a subsidiary of Itac making our links to the construction industry closer than ever.

Delvemade products made from **ITS buildtec** range of silicones and polyurethanes include:

Seamsil - for cut edge corrosion

Delcote - for roof recoating

Delcote HPG - for leaking gutters

Delglaze - for skylight repairs

Our **ITS buildtec** range utilises silicone, acrylic and polyurethane technologies in a wide range of applications including rigid, flexible and fleece-backed substrates.
