

PRESS RELEASE

New General Manager adds strength and depth to Itac team

Itac's management and production teams recently received a huge boost when Steve Farnworth joined the well-known, adhesives and coatings manufacturer as General Manager. Demonstrating excellent credentials for this important new role in the business, Steve brings a wealth of experience gained during a career at ICI and other various manufacturers of bulk chemicals and polymers.

Steve is a fellow of the Institute of Leadership and Management. He has assumed day-to-day responsibility for the running of Manchester based, Itac's manufacturing plant and facilities.

This new appointment is a part of Itac's planned strategy for improvement and growth. It will allow Paul Armitt to relinquish the everyday factory management aspect within his role as Managing Director. Paul will now focus further on the continued development of our customer care programme.

Ends
